### WEDNESDAY, JUNE 5

#### Opening: Regina Silveira at Alexander Gray Associates

Marking the 10th anniversary of Regina Silveira's first solo show with Alexander Gray Associates, this exhibition brings together 10 unrealized site-specific installations and public projects by the Brazilian artist Regina Silveira. The drawings, models, and digital renderings in the show span three decades of her career, with works including *Illuminada* (2015), in which Silveira envisioned an animated labyrinth and digital waterfall cutting across a thoroughfare in Bogotá, Colombia, and *Supersonic Goal* (2004), which was originally planned for the Pacaembu Soccer Stadium in São Paulo.
